**The Polycor Group, the world's largest natural stone quarrier, will be **carbon neutral** by the end of 2025.**

# Carbon Neutrality in a Context of Economic Uncertainties

Should we pause carbon neutrality initiatives in a context of economic uncertainties?

# Polycor Carbon Neutrality Roadmap

Reduce scope 1 and 2 emissions by 25%

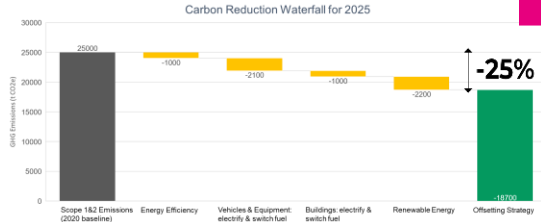

Electrify 30% of its light vehicle fleet

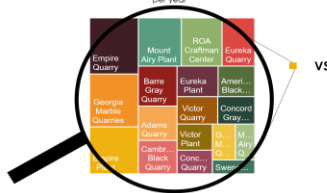

Reach 50% of renewable energy with PPA's and electrification of our site

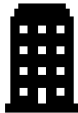

Increase the use of stone in the construction industry to reduce global CO<sub>2</sub> emissions

# Stone Industry: A Completely Different Carbon Reality

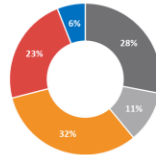

# Reducing the Environmental Footprint of Construction Materials

Global CO<sub>2</sub> Emissions by Sector

- Building Operations
- Building Materials and Construction
- Industry
- Transportation
- Other Sectors

**Buildings are responsible for about 40% of global CO<sub>2</sub> emissions.**
